When You're Sick, Doctor,

WHO TAKES CARE OF YOU?

When you're disabled by a sickness or accident, it can create a serious problem for you and your family. Chances are your professional income STOPS, but the need to provide for yourself and your family DOESN'T.

You still must meet the bills that are normally a part of everyday living PLUS the extra burden of expense brought on by your illness or accident.

Mutual of Omaha's Professional Men's Plan has the answer. Here's coverage that provides a regular monthly income for as long as total disability lasts, whether it's a week, a month or EVEN FOR LIFE! It's especially designed to meet the needs of men in your profession.

Why not get in touch with your MUTUAL of OMAHA General Agent today? He'll be glad to give you full details on this modern plan of protection. Of course, there's no obligation.

REGULATORS

"Essential" fatty acids . . . arachidonic and linoleic . . . and fat-soluble vitamins . . . A, D and K . . . can be obtained from everyday foods. These nutrients serve essential but obscure roles in maintenance of body membranes and skin. Intestinal absorption of calcium, mineralization of bone and teeth, and clotting of blood.

From foods listed in *A Guide to Good Eating*, the "essential" fatty acids are obtained from the fat present in milk, cheese, ice cream, butter, eggs, meat, fish, poultry, nuts . . . and in larger amounts, from some natural fats and oils used in food preparation and at table. Vitamin A value is generously supplied by milk fat in dairy foods, eggs, dark green leafy vegetables, yellow vegetables and fruits.

Vitamin D . . . important for absorption and utilization of calcium during growth, pregnancy and lactation . . . is not amply provided by foods listed in the "Guide" . . . unless vitamin D-fortified milk is used in recommended amounts. Vitamin D can be formed in the skin if it is exposed to sunlight or ultraviolet lamp.

Many foods listed in the "Guide" supply vitamins E and K . . . i. e. green leafy vegetables, nuts and dairy foods containing milkfat. Plant oils used for salads or food preparation are rich in vitamin E. Microorganisms form vitamin K in the intestines.

VEGETABLES AND FRUITS

4 or more servings • Include dark green or yellow vegetables; citrus fruit or tomatoes

When combined in well-prepared meals, foods selected from each of the four food groups can provide all of the necessary fat-soluble vitamins and fatty acids . . . while satisfying the tastes, appetites and other nutrients needs of all members of the family . . . young and old.

The nutritional statements made in this advertisement have been reviewed by the Council on Foods and Nutrition of the American Medical Association and found consistent with current authoritative medical opinion.

Committees and Organizations

SCHEDULE OF COMMITTEE AND COMMISSION APPOINTMENTS, 1960-1961

NOTE: The Committees listed herein have been authorized by President Amos N. Johnson, and/or are required under the Constitution and By-Laws.

Particular note should be taken of the authorization of the House of Delegates of a Commission form of organizational activity and that all Committees, excepting Committee on Nomination, Committee on Negotiation, and Committee on Grievances, are segregated under the respective Commission in which the function of the committee logically rests. This will tend to eliminate overlapping and duplication in activity programs and result in coordination of the work of the Society in a manner to lessen the work of the delegates in the Annual Meeting of the House of Delegates.

(The President, Secretary and Executive Director of the Society are ex-officio members of all committees and, along with the Commission Chairman, should receive notice of meetings, agenda and minutes of committee meetings during the activity year.)

For Your Personal Pension Plan

The special features of the New England Life
contract will serve you to advantage

Recently we have run ads in this Journal and pointed out the new privileges to be available to you and other professional practitioners in the formation of individual retirement programs. We described the flexible change of plan clause in our policies, and the special techniques and contracts developed in connection with Corporate Pension Plans, pointing out that those features and services could well be applicable to you personally.

The experience and services of our Company and Agency are available to you in connection with your personal life insurance and retirement programs, regardless of and independent of the Smathers, Keogh-Simpson Legislation that may be passed. Any retirement program you may now initiate through New England Life can be adopted through such legislation as may be passed in the future.

Again we list below our Agency Associates whose knowledge and experience may serve you well.

FIFTY YEAR CLUB

The House of Delegates of the Medical Society of the State of North Carolina in May of 1953, authorized the Executive Council of the Society to establish a special recognition for those physicians residing in the State of North Carolina who were members currently of the State Medical Society, who had established legal practice of medicine and who had actively practiced medicine during their life time for a period of fifty years.

Listed below in alphabetical order are the names and address of those physicians residing in North Carolina, whom the Medical Society of the State of North Carolina has recognized as members of the FIFTY YEAR CLUB of the State Medical Society. This list will be added to from year to year and likewise subtracted from as losses to this club group are sustained and reckoned.

This listing for 1960 may include Fifty Year Club members, who have passed away since their recognition. The list will include only those members surviving during the year of the list and those added for that year.

**DO IT NOW! DON'T PUT IT OFF! A DELAY NOW MAY COST YOU
A LIFETIME OF REGRET.**

Long ago men realized that, for a tree to withstand the storm, its roots must reach deep as its branches spread high.

STRENGTH...

The strength of Blue Shield is the strength of the medical profession. They sustain each other as do root and branch. As one doctor put it: "I believe that free medicine can survive only with Blue Shield. They are not identical entities, but they are so mutually interdependent that neither one will go much farther without the active support of the other." **BLUE SHIELD**
